Donald Trump's 28 Big Accomplishments as President

(Prior to the COVID Pandemic of 2020)

Got America's Economy Booming Again

- Enacted the largest tax cuts in America's history – slashing the top tax rate on businesses from 35 percent to 21 percent. He also cut taxes on 90 percent of individuals.
- Erased thousands of anti-business regulations that were suffocating America's economy. President Trump eliminated 22 regulations for every one regulation added.
- As a result, the U.S. economy grew at more than double the rate under President Trump than it had under President Obama, prior to the pandemic.
- The economy created 4.5 million new jobs under President Trump before the pandemic.
- The U.S. became an oil and energy exporter, thanks to President Trump eliminating Obama's many regulations and drilling/exploration bans that were blocking U.S. exploration and development of our oil, natural gas and coal resources.

Secured America's Borders

- Built 400 miles of border wall.
- Enacted the “Remain in Mexico” policy for asylum seekers.
- Reduced illegal border crossings by 40 percent.
- Ended the Obama-era “catch and release” of illegal migrants.
- Boosted the arrests of illegal migrants inside the U.S. – including the arrest and deportation of thousands of members of the ultra-violent MS-13 gang.

Appointed More Than 200 Conservative Constitutionalist Judges to America's Federal Courts, Including Three Supreme Court Justices

- There is no more important institution of government than America's courts. The Biden regime wants another term so it can pack the Supreme Court and America's federal courts with radical Left judges who will ignore the Constitution and legislate from the bench and remake America with insane rulings.
- **Donald Trump** appointed three Constitutionlists to the Supreme Court, including Justices Neil Gorsuch, Brett Kavanaugh and Amy Coney Barrett.
- Donald Trump appointed more than 200 judges to America's lower federal courts. These judges have helped slow down the Biden Regime's radical Left assault on America.

Destroyed ISIS, Confronted Radical Islam, Brought Peace to the Middle East

- Dropped the massive MOAB bomb on the ISIS leadership in Afghanistan in April 2017, which wiped out much of the ISIS leadership.
- Ordered his generals to undertake whatever measures were necessary to destroy ISIS. U.S.-backed

forces recaptured Raqqa and Mosul in the summer of 2017 and killed tens of thousands of ISIS fighters along with much of the ISIS leadership.

- Killed ISIS founder and leader **Abu Bakr al-Baghdadi**.
- When Obama left office, ISIS controlled an area of the Middle East the size of Indiana. After 3 years of Trump, ISIS controlled no territory.
- Ended Obama's disastrous Iran deal.
- Ordered a drone strike that killed Iran's top terrorist leader **Qasem Soleimani**.
- Iran (the world's biggest state sponsor of terrorism) was silent after Trump killed Soleimani.
- Moved the U.S. Embassy in Israel from Tel Aviv to Jerusalem.
- Stood resolutely with Israel against Hamas and Iran-backed terrorists.
- Orchestrated the signing of the historic Abraham Accords, ending decades of conflict between Israel and its Arab neighbors. Ushered in an era of peace and calm in the Middle East.

Made America Strong Again

- Secured the largest increase in spending for our military since the days of President Reagan.
- Empowered military leaders to "seize the initiative and win," reducing the need for the White House to sign off on every mission – reversing President Obama's policy of micromanaging every decision that should be made by generals and commanders on the ground.
- Started the Space Force as a new branch of the U.S. military. Directed the revival of the National Space Council to develop space war strategies – including a comprehensive shield to protect America and our allies against ICBM nuclear missile strikes.
- Elevated U.S. Cyber Command into a major warfighting command.
- Kept America out of unnecessary wars. Reduced the number of wars and military conflicts America was in, while conducting quick military strikes when necessary.

Very Tough on China, While Also Establishing a Good Relationship with President Xi

No American President has been tougher on Communist China than President Trump, who imposed tough trade tariffs on China – to force China to start treating American businesses fairly. At the same time, President Trump had a good working relationship with China's President Xi, and they were making good progress on tariffs and trade until the COVID pandemic hit in March of 2020.

Reduced Tensions with North Korea by Establishing a Good Relationship with Kim Jong Un

- Until President Trump, North Korea's rogue Communist regime was constantly threatening a nuclear missile attack on America and/or its neighbor South Korea. North Korea was constantly conducting Intercontinental Ballistic Missile and nuclear bomb tests.
- President Trump developed a good relationship with the North Korean dictator Kim Jong Un. President Trump persuaded Kim Jong Un to stop his ICBM and nuclear bomb tests. Kim Jong Un has resumed his ICBM and nuclear bomb tests and threats during the Biden Presidency.

Dramatically Reduced Crime

- Signed three executive orders aimed at cracking down on international criminal organizations.
- Ended Obama's rhetorical war against cops (where he kept calling our police racist) and instead supports America's thin blue line that protects civilization.
- Prior to the pandemic, violent crime dropped dramatically in America's urban areas. Under Joe Biden, we see more than 55,000 assaults on police officers per year.
